
The following page(s) are extracted from multi-page Kuhnke product catalogues or CDRoms and any page number shown is relevant to the original document. The PDF sheets here may have been combined to provide technical information about the specific product(s) you have selected.

Hard copy product catalogues, and CDRoms have been published describing Kuhnke Pneumatics, Solenoids, Relays and Electronics; some divided into different books. A list of current publications is available on this web site or from our sales offices. Some may be available for download, but as substantially larger files.

Miniature Pressure Switch

60006-01

- Op. Pressure:**
0.8 to 8 bar
- Connections:**
M5 port
- Contact Rating:**
10 mA @ 24V DC (NO)
- Connection:**
Solder or push on terminals.
- Dimensions:**
25mm H x 17mm W x 26mm D
Weight – 3 gr.
- Mounting:**
Through body holes.
- Operating Ambient:**
-10° C to 60° C

Small micro switch used to detect the presence of air pressure in pneumatic systems. The switch is M5 ported and contains a micro switch rated at 10 mA 24V DC. The switch is designed for use with programmable controllers, providing indication of air pressure, operating when pressure rises above 0.8 bar ($\pm 25\%$).

Adjustable High Sensitivity Pressure Switch

60006

- Min./Max. Pressures:**
3 to 30 mbar
pressure or vacuum.
- Max. Overload Pressure:**
100 mbar
- Contact Rating:**
1 Amp and 220V AC.
- Dimensions:**
58mm H x 44mm W x 30mm D
Weight – 9 gr.
- Mounting:**
2 mounting holes in base.
- Operating Ambient:**
-15° C to 70° C

The high sensitivity pressure switch is used to detect pressures or vacuum between 3 and 30 mbar. It can be used in detection systems operated by changes in air pressure. The switch is diaphragm operated, with an integral, adjustable electrical contact rated at 1 Amp 220V AC.

Pressure Switches and Indicators

Series 60 P/E Switches

Kuhnke System Logic Devices

Adjustable Pressure Switch

(Normal and Low Pressure types)

60073-80-99 Standard version 3 to 10 bar

60073-40-99 Low pressure version 0.5 to 4 bar

The Series 60 adjustable pressure switch is designed for use in detecting pressure in pneumatic systems, and provides an electrical contact output to control or indication devices.

The P/E switch pull in pressure can be adjusted throughout its operating pressure range. The dropout point is $\pm 3\%$ below the set point pressure.

An electrical micro-switch with a form C (make/break) contact is actuated by a separate diaphragm operated system. Contacts are rated 10A at 230V AC. 6mm push on connectors or an electrical plug (cat. no. 67499) can be used to complete electrical connections.

Other versions of the adjustable P/E switch are available for specific applications. They include electrical contacts rated at 100mA (catalogue suffix – **01**) and contacts rated at 6 Amps. (catalogue suffix – **60**).

Technical Specifications

Op. Pressure:

3-8 bar Standard
0.5-4 bar Low press. version

Connections:

M5 bottom ported

Media:

Filtered Air.

Pull in Pressure:

Adjustable full range

Drop out Pressure:

3 % of pick-up pressure.

Contact output:

1 form C contact.

Terminal Marking:

1 - Common
2 - N/C contact
3 - N/O contact

Contact Rating:

10A @ 230V AC
6A @ 120V AC
5A @ 24V DC

Electrical Connectors:

6mm push on or
Cat. No. 67499 plug.

Setting:

Via adjustment screw.

Operating Ambient:

0°C to 60°C

Materials:

Molded body, aluminum base,
Viton diaphragms, seals.

Dimensions:

70mm L x 30mm W x 48mm H.

Mounting:

Via 4 M4 holes in base.
